- The Group maintained cost discipline and operating expenses were relatively unchanged from a year ago at S$1.56 billion. CIR was lower at 43.1%, compared to 45.7% last year.
- Total allowances were S$200 million, 4% lower than S$208 million a year ago. Credit costs were at 20 basis points of loans on an annualised basis, compared to 21 basis points in 4Q24.
- Share of results of associates rose 6% to S$261 million, from S$245 million a year ago.

<u>4Q25 Quarter-on-Quarter Performance</u>

Group net profit was 12% below the previous quarter.

- Net interest income grew 3% from a quarter ago to S$2.30 billion, driven by a 2% asset growth, lower funding costs and continued deployment of excess liquidity to high-quality assets.
- Non-interest income was 16% lower at S$1.32 billion, as compared to S$1.57 billion last quarter.
    - Wealth management fees and customer flow treasury income were lower, both affected by typical year-end seasonality.
    - Insurance income declined 28% mainly due to adjustments to reflect the updated expectations in the medical insurance environment in Malaysia. Underlying business remained strong, as reflected in a 22% increase in total weighted new sales and 32% growth in NBEV from previous quarter.
- Operating expenses increased 3%, mainly from higher technology-related costs and professional fees as the Group continued to invest in strategic initiatives along its digitalisation journey.
- Total allowances of S$200 million were 44% higher than the previous quarter, mainly due to higher allowances for impaired assets, partly offset by a net write-back in allowances for non-impaired assets.
- Share of results of associates was S$261 million, down 7% from S$279 million a quarter ago.

1/ Credit costs refer to allowances for loans as a percentage of average loans, on annualised basis.

<u>Non-performing assets ("NPAs")</u>

- As at 31 December 2025, total NPAs were S$3.24 billion, up 13% from a year ago.
- Against the previous quarter, NPAs were 9% higher, mainly due to lower net recoveries, upgrades and write-offs. New corporate NPA formation was relatively stable at S$399 million as compared to S$349 million a quarter ago.
- NPL ratio remained unchanged at 0.9%, and total NPA coverage stood at 151%.

<u>Allowances</u>

- For FY25, total allowances were 4% lower at S$665 million, and credit costs declined to 17 basis points from 19 basis points a year ago.
- 4Q25 total allowances were S$200 million, and comprised mainly:
  - Allowances for impaired assets of S$236 million, set aside largely for two corporate real estate accounts.
  - Write-back in allowances for non-impaired assets of S$36 million, primarily due to migration to allowances for impaired assets, and adjustments for changes in macroeconomic variables, partly offset by changes in exposures and risk profiles.
